Flexibility in Supporting Urgent Requests

Our experience with over 500 protocols and capacity of 150 to 180 simultaneous protocols allows us to support your urgent requests and quick start-up.

Enhanced Solution Data Management

Data Center Service

We provide 'Client-Specific' Data Management in extensive post-marketing surveillance studies with EPS know-how and ample human resources.

Offshore Service

Data management service is provided offshore at our subsidiary, a leading CRO in China, and we guarantee the same speed and high quality as in Japan but at more efficient cost operations.

ADVANTAGE of EPS

- Utilizing information technology (IT), a strength of EPS, we provide efficient data management.
- Based on vast experience in contract services, we are able to provide services in a wide range of therapeutic areas, such as in cancer.
- We can accommodate your urgent requests based on our capacity to work on up to 180 simultaneous protocols.
